DETAILED ACTION

Drawings

The drawings are objected to because they are informal and unclear. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

Art Unit: 2891

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-3, 10, 14, 22 and 23 are rejected under 35 U.S.C. 102(b) as being anticipated by Wu (US Patent 6,114,201). Wu disclose disposing a trench layer upon a semiconductor substrate (18, 20), forming one or more trenches (34) in the trench layer exposing the semiconductor substrate, filling the one or more trenches with a semiconductor material (26) contacting the semiconductor substrate; and a portion of the trench layer to expose the semiconductor material as one or more semiconductor fins (see figures 4-11). With regards to claims 2, 3, and 23 Wu disclose the trench layer is comprised of a plurality of layers, and that the plurality of layers comprises a first oxide layer (18), a nitride layer (20) on the oxide layer and a second oxide layer (30) on the nitride layer. With regards to claim 10, Wu disclose a conformal (blanket) deposition (see column 5 lines 10-20). With regards to claim 22, Wu disclose the substrate is comprised of a silicon substrate (see column 3 lines 38-60).

Allowable Subject Matter

Claims 24-28 are allowed.

Claims 4-7, 9, 15-18, and 20 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

The following is a statement of reasons for the indication of allowable subject matter: the prior art of record does not teach or suggest removing the second oxide layer and the silicon nitride layer and part of the first oxide layer (claim 4), wherein the

Art Unit: 2891

trenches have a depth of 10nm (claims 5, 6, 15-17), planarizing the semiconductor material to the surface of the second semiconductor layer (claims 7 and 18), epitaxially growing the semiconductor material within the trenches (claims 9, 20 and 24-28).

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
